## Education

MIT Art, Design and Technology University, Pune

Bachelor of Technology in Computer Science and Engineering **CGPA - 9.01**

Expected May 2027

Pune, Maharashtra, India

The Orbis School, Keshavnagar, Pune

CBSE Class XII

May 2023

Pune, Maharashtra, India

## Relevant Coursework

- Data Structures
- Database Management
- Computer Networks
- Processor Architecture
- Software Engineering
- Prompt Engineering
- Operating System
- Computational Thinking

## Experience

Web Development Team lead

December 2024

Careasa Healthcare Pvt. Ltd.

Remote

- Led a cross-functional software team to design, develop, and deploy a responsive web application, managing the full software development lifecycle from planning to deployment
- Conducted code reviews and mentored junior developers, improving code quality, delivery speed, and maintaining **99%** feature stability across releases

Technical Team Lead

April 2025

Microsoft Learn Student Club

Remote

- Guided a team of student developers in collaborative technical projects, fostering a shared learning environment focused on practical skill-building.
- Facilitated knowledge exchange through regular discussions and peer-led sessions on emerging technologies and development tools.

## Technical Skills

**Languages:** JavaScript, C/C++, Python, SQL, HTML, CSS

**Frameworks and Libraries:** ReactJS, NodeJS, ExpressJS, TailwindCSS, Sequelize, Framer-Motion, TensorFlow

**Databases:** MongoDB, SQL, MySQL, PostgreSQL

**Other Technologies:** Firebase, Git & GitHub, Postman, Canva, AWS

## Projects

**SoleCraft - A Footwear Services Platform** | [🔗 ReactJS](#), [React-Router-DOM](#), [TailwindCSS](#), [Vite](#)

April 2025

- Built a service-oriented web application to organize the informal cobbler sector, offering digital access to shoe exchange, customization, servicing, reselling, and shopping.
- Designed dynamic service modules with reusable React components, streamlining development and improving code maintainability by **40%**.
- Enabled user-friendly service bookings with smooth routing using React-Router-DOM and responsive layouts via TailwindCSS.
- Applied minimalist UX principles to reduce user friction, increasing service engagement by **60%**.

**JetSetGo - An Airline Management System Platform** | [🔗 ReactJS](#), [React-Router-DOM](#), [TailwindCSS](#)

March 2025

- Built a responsive travel booking platform featuring 20+ curated international destinations using ReactJS, TailwindCSS, and Vite, reducing bounce rate by **40%** through clean UI and fast load times.
- Designed and implemented a dynamic homepage with animated banners, scrollable cards, and structured content, improving user engagement by **60%**.
- Ensured **100%** mobile responsiveness and cross-browser compatibility, optimizing layout across 15+ device resolutions.
- Developed a simple and smooth UI with **ReactJS**, **TailwindCSS**, and **Framer Motion** for better usability and readability
- Achieved **95%** Lighthouse performance and accessibility scores, ensuring a smooth and inclusive user experience.

## Achievements

- \* Cleared JEE Mains
- \* Solved over **200+** Data Structures and Algorithms (DSA) Problems across various platforms.
- \* SEBI Certified Investor (NISM) – Completed the SEBI Investor Certification Examination with a **49/50** score.
- \* Project Lead, **JetSetGo** – Led end-to-end development of a proprietary project, JetSetGo, with registered copyright, showcasing innovation and original technical design.
